4. FORMAT, TIEBREAKERS & PLAYOFFS

3 pools of 4. Each pool winner advances. The 4th playoff spot is a **Wildcard** via Swing-Off Challenge. Any team with **at least 1 win** in pool play is eligible. Playoffs are single elimination (4 teams).

Pool 1st-place tiebreakers (in order)

- Head-to-head record
- Fewest runs allowed ← defense/pitching is huge
- Run differential
- Most runs scored
- Coin flip

Playoff bracket

- Semi-Final 1: Pool 1 Winner vs Pool 2 Winner
- Semi-Final 2: Pool 3 Winner vs Wildcard
- Championship: Semi winners → CHAMPION

UNDERDOG PATH: Steal 1 pool win (Wildcard eligibility) + keep runs allowed low (tiebreakers / Swing-Off odds).

5. RULES THAT WIN (AND LOSE) GAMES

Condensed from PLW Basic Rules + Official Season 6 Rule Book. Know these cold.

Hitting & outcomes (no baserunning except tag-ups)

- Every at-bat starts **0–1** (one strike already).
- **Single:** grounder through infield played by OF, or fly that lands in OF (not wall / not out of play).
- **Double:** ball that bounces before hitting the back wall.
- **Triple:** fly ball that hits the back wall in the air.
- **HR:** fly ball clears the back wall in the air.
- Cheap/front foul line between 1B and 3B — behind it (toward plate) is foul.

Pitching (huge leverage for underdogs)

- Any speed allowed — but a **called strike** must read **≤55 mph** on radar AND hit the K-zone in the air.
- Back foot stays on rubber until release; front foot must land on pitching mat.
- HBP = ball (unless hands-on-bat, or face ≥65 mph). HBP counts toward walk total.
- **Walk 2 batters → pitcher is done for that game** (last eligible pitcher has no walk limit).
- Illegal pitch progression (per pitcher per series): warn/no-pitch → automatic ball → automatic walk.
- Pitchers must face ≥3 batters (or finish inning) when entering — MLB-style appendix rule.
- No white/gray/distracting sleeves for pitchers. No quick-pitch (auto ball).

Fielding / 5-second outs (practice this)

- No gloves — bare hands only.
- Force out at 1B/home: throw ball into backstop / K-zone / batter **in the air** within **5 seconds** of contact.
- Can tag 2B/3B within 5 seconds for force outs when applicable.
- Holding runners on singles: throw to 3B (<5s) holds at 2B; throw to backstop in air (<5s) holds at 3B.
- Infield ball with no out recorded → runners +1 base, batter to 1B.
- Fielders may not be closer to the plate than the pitcher.

Tag-up / sac fly (the only real baserunning)

- With <2 outs, runner on 3rd may tag up after a caught fly and run home.
- Out if ball hits backstop / K-zone / runner before they touch home (throw may bounce).
- 18-ft commit line on 3B line — touch/cross it and you cannot return to 3B.
- Cannot cross commit line after pitcher has the ball on the mat.

Game structure & equipment

- Games are 6 innings. Extras: runner placed on 2B to start.
- Mercy: 10-run lead after 3 complete innings; also ends when a team scores their 15th and leads by ≥2.
- Min 6 players; up to 12 on roster. 6 fielders incl. pitcher; lineup 6–12 batters.
- Only official original yellow Wiffle bats. Tape: max 12" barrel section; both ends uncovered; barrel fits 2" Sch.40 PVC.
- Game balls: new/like-new official Wiffle balls — remove deformed/dirty/scuffed balls.
- K-zone: 24" × 28.5", stands 10" off ground. Mound ~43.5' to zone. Lines ~90–105', CF ~115–125'.

6. CODE OF CONDUCT (DON'T GET TOSSED)

- Respect players, umpires, staff, fans, and the ranch property. Clean dugouts.
- Only managers speak to umps about calls.
- Stay in dugout unless on deck / batting / on defense (HR celebration exception).
- No taunting, personal insults, or profanity; zero tolerance for racism, violence, weapons.
- Don't throw bats in anger. Handle gear safely.
- Motto: **Play Hard. Have Fun. Respect All.**

7. UNDERDOG TIPS & TRICKS — STEAL GAMES FROM BETTER TEAMS

You're probably the least experienced team — that's fine. PLW rules create specific leverage points. Use them. Goal: **1 quality win**, low runs allowed, and stay alive for Wildcard / Pool C chaos.

A. Pitching game plan (your #1 equalizer)

- **Live under 55 mph with movement.** Called strikes only count ≤ 55 into the K-zone. Practice a repeatable under-55 strike and a harder "looks like a strike" ball that charts over 55 (reads as ball even if it hits the zone).
- **Attack the zone early.** Batters start 0–1. Get ahead; make them chase. Don't nibble yourself into walks.
- **Protect the 2-walk limit.** Two free passes = pitcher scratched. If you're close to walk #2, change the plan: challenge the zone rather than dance around it. Know who your emergency last pitcher is (no walk limit).
- **Footwork legality.** Back foot on rubber, front foot on mat. Illegal pitches escalate to free bases — don't gift better teams walks.
- **Mix locations / speeds / spin.** Experienced hitters crush predictable yellow-ball heaters. Change eye levels and timing every at-bat.
- **Use intentional walks wisely** (no pitches required). Walk the middle-of-order killer to face a weaker bat — but remember walks count and can burn your pitcher.

B. Defense & runs-allowed obsession

- **Fewest runs allowed is tiebreaker #2** (after H2H). Even a 1–0 or 2–1 loss helps more than a 12–10 "fun" slugfest if you're fighting for pool rank / strength of schedule optics into Swing-Off.
- **Drill the 5-second throw to the backstop/K-zone.** Most outs are "throw it home in the air, fast." Practice scoop → throw accuracy barehanded. Missed 5-second windows = free singles.
- **Hold runners.** On singles, a clean <5s throw to 3B or backstop stops traffic. Experienced teams advance aggressively if you panic.
- **Positioning:** no one closer than the pitcher. Shade pull-side for dead-pull hitters; protect the cheap line (short foul in front of the bases).
- **Communication:** call flies early. Collisions / drops with no gloves are free outs for the other team.
- **Avoid mercy.** Don't quit after 3 — keep competing for runs allowed and pride, but also don't gift 15-run mercies that inflate their stats and crush yours.

C. Offense against better pitching

- **Start every AB down 0–1 — shorten up.** Put the ball in play. Whiffing looking for a perfect pitch plays into good pitchers.
- **Aim for doubles/triples geometry.** Balls that bounce before the wall = doubles; air to the wall = triples. Line drives into gaps beat pop-ups to short OF.
- **Don't gift outs on the cheap line.** Choppers that die in front of the bases are outs/fouls — swing with intent to get it past the infield line.

- **Two-strike approach:** foul tips into the K-zone twice with 2 strikes = K. Protect; soft contact over hero swings.
- **Tag-up IQ:** with <2 outs and a runner on 3rd, a medium fly can score if you commit correctly. Practice the commit line — hesitate and die; overcommit and get doubled off.
- **Lineup length:** you can bat 6–12 and add to the bottom, never shorten. Put your best contact guys where they see the most ABs; hide weaker hitters if needed.

D. Tournament math & mind games

- **Get 1 win at all costs.** Wildcard requires ≥ 1 pool win + Swing-Off. A 1–2 record with a gutsy win beats 0–3 every time.
- **Target the winnable game.** Scout R2/R3/R5 Pool C games. Identify who looks beatable. Peak your best pitcher for that matchup (likely Sandvipers at 1 PM or whoever looks shaky).
- **Opening game vs Savages (10 AM):** set the tone with clean defense and strike-throwing. Even a close loss with low RA helps tiebreakers.
- **Swing-Off prep:** if you're 1–2, treat Swing-Off like Game 7. Know the challenge format from PLW (practice timed swings / accuracy if that's the event style) and stay loose after Round 6.
- **Energy management:** Florida August heat. Shade, water, electrolytes between rounds. Fresh arms & hands beat talent that cramps in Round 6.
- **Uniforms:** photographer prioritizes polished-looking teams. Matching purple/gold kits won't win innings — but they help morale and photos if you make a run.

E. Small-rules edges most casual teams miss

- Force opponents into illegal-pitch / foot faults with a patient eye — free balls add up.
- Know when a ball that hits fence on bounce = everyone scores / batter to 2B (special cases for runner from 1st). Don't stop running the placeholders mentally.
- If defense holds the ball against the fence, extra bases are NOT awarded — keep pressure only when the ball is truly past them.
- Only managers argue. Keep the dugout calm so umps don't tilt against the “new” team.
- Legal bat tape only. An illegal bat = automatic out. Check PVC ring rule before first pitch.
- Wild pitch out of play advances runners 1 base — be ready; don't sleep on WP/HBP sequences.

SIMPLE SCRIPT: Throw strikes under 55 • Catch + hit the K-zone in 5 seconds • Scratch 1 win • Keep RA low • Survive to Swing-Off.
